

A monthly journal of cardiology
published in association with
British Cardiac Society

British Heart Journal

18/1/75

g studies

Wolff-Parkinson-White syndrome
*R. A. J. Spurrell, D. M. Krikler, and
E. Sowton*

Delay and block of cardiac impulse caused
by enhanced phase-4 depolarization in the
His-Purkinje system *A. Kretz,
H. O. Da Ruos, and J. R. Leguizamón
Palumbo*

Clinical, haemodynamic, and coronary
angiographic correlates of angina pectoris
in patients with severe aortic valve disease
*L. L. Basta, D. Raines, S. Najjar, and
J. M. Kioschos*

Factors influencing long-term prognosis in
male patients surviving a first coronary
attack *R. Mulcahy, N. Hickey, I. Graham,
and G. McKenzie*

Intermediate coronary care. A controlled
trial *P. C. Reynell*

Acute severe cardiac failure complicating
myocardial infarction. Experience with 100
patients referred for consideration of
mechanical left ventricular assistance
*M. F. O'Rourke, V. P. Chang,
H. M. Windsor, M. X. Shanahan,
J. B. Hickie, J. J. Morgan, J. F. Gunning,
A. W. Seldon, G. V. Hall, G. Michell,
D. Goldfarb, and D. G. Harrison*

105	Occurrence of coronary ostial stenosis in a necropsy series of myocardial infarction, sudden death, and violent death <i>Viljo Rissanen</i>	182
115	Idiopathic giant cell myocarditis—a distinctive clinico-pathological entity <i>M. J. Davies, Ariela Pomerance, and R. D. Teare</i>	192
127	Ejection phase indices of left ventricular performance in infants, children, and adults <i>M. Tynan, D. S. Reid, S. Hunter, H. H. Kaye, S. Osme, W. Urquhart, and P. Davies</i>	196
136	Maximal intestinal absorption of digoxin, and its relation to steady state plasma concentration <i>Brian F. Johnson and Carole Bye</i>	203
150	Electrocardiogram of secundum type atrial septal defect simulating endocardial cushion defect <i>K.-T. Tan, A. Takao, A. Hashimoto, and T. Sato</i>	209
158	Case reports Effect of intermittent left anterior hemiblock on left ventricular function <i>R. H. Swanton, D. J. Coltar, B. S. Jenkins, and M. M. Webb-Peploe</i>	216
166	Complete interruption of aortic arch, without persistent ductus arteriosus, in an adult <i>G. P. Sharratt, P. Carson, and J. M. Sanderson</i>	221
169	Relief of severe left ventricular outflow obstruction in a case of hypertrophic obstructive cardiomyopathy treated with propranolol <i>M. El Gamal, G. B. A. Schasfoort, and L. C. M. Schrijvers</i>	225
